Dear researchers,

About this update

On January 10, 2010, GenTeam went online with approximately 1.3 million entries (index of Roman Catholic marriages of Vienna, several indices for Lower Austria, owners of building plots in Lower Austria, gazetteer for Austria, Bohemia, Moravia and Slovenia). Today, more than **21.2 million** records are online. I would like to take this opportunity to sincerely thank all those who have contributed to this success.

The number of registered and active users has also been growing continually. They all benefit from free access to all data without having to pay any membership fees.

If you are unsure about the exact spelling of the name of a person or a location, you can also enter partial names in all of GenTeam's databases. Enter only the part you are sure about. The **autocomplete** function is an easy solution to solving the problem of variations in orthography!

Details on this update

- 1 **Military – Austro-Hungarian casualty lists of World War I 1914- 1919**
Already 2.2 million records!

The casualty lists enumerate the wounded and killed soldiers as well as the prisoners of war of all Crown Lands of the Habsburg monarchy. In their entirety, these lists will hold approximately 3 to 3.5 million names. They include officers and one-year volunteers, but also subordinated military personnel of all denominations, including Jewish, Muslim and Protestant soldiers.

Besides many lists that have already been entered fully, among them the casualties of Przemysl 1915 as well as supplemental lists, a great number of partial lists are also online. In addition, work is in progress for many more.

Several collaborators of this project prefer to remain unnamed. I would therefore like to sincerely thank all those who have contributed to this important database, all those who are already working on further lists, as well as Frank Raschka for managing this project.

I would like to invite you to participate in this fascinating project. If you are interested please contact the project manager Frank Raschka at verlustliste@gmail.com or kontakt@GenTeam.at. We will then send you a sample entry table and assign you a list number.
